

25.84 KWp Photovoltaic System

Customer: Private

Location: Panama

Scope: 25.84 KWp Photovoltaic System

Areas Involved: Renewable, Electricity and Civil

Descripción

Auto generating photovoltaic power system installation with a capacity of 25.84 KWp on the roof of a building, generating 33.630 KWh year.

Demand coverage was 69% with 68 polycrystalline panels installed.
